## The Daily Novelette

By Jessie Douglas

The significance of the Pinchot drive here is that the fight can be lost to the Stept in the old walnut bed, the sleep of the exhausted, city-wracked worker. Could she ever forget the first morning personally urged by Senator Vare to roll up the biggest possible machine vote for Alter on the theory that a big Vare vote will counteract the big Pinchot vote in the rest of the State.

But the ghost of failure is already stalking about the Vare camp. In the beginning Vare lenders confidently rolled such majorities as 200,000 and 150,000 for Alter in Philadelphia on the tips of their tongues. There was nothing to it, week was out, a great batch of yellow received and the selection in restriction of the state of the State.

But the ghost of failure is already stalking about the Vare camp. In the beginning Vare lenders confidently rolled souls, had laughed at the antics of the State.

Pinchot's strength is greatly enhanced by dissatisfaction among the leaders in some of the interior and south central counties of the State. This is particularly noticeable in Blair, where a regular Kilkenny condition exists.

They came in hand in hand, until they saw Miss Winthrop sitting there, and then Alice had remembered that world did exist, a world where ordinary things happened and life went on its uneventful course.

"We brought you," she began, and then looked in dismay at Norman's empty arm.

The wedding was to be in March and Alice had come back to the city with her head full of dreams. At once they began that delightful task, the selec-

ertson found no escort for him on his arrival here, as he announced he had requested in a telegram to the Embassy from Newark yesterday.

One of Miss Culberson's letters to young Robertson reads: "The scheming of my family is getting on my nerves. I know that you are under surveillance in New Jersey and that you were under surveillance in Texas. Letters have been sent to my mother stating that you are an adventurer and fortune seeker. You must be very careful and remember your promise not to do anything that might cause trouble to everybody."

A copy of this letter reached Robertson at Bloomfield, N. J.. April 5.

With other correspondence, it was expected to be laid by him before the Embassy as corroborative evidence of his story.

Embassy as corroborative evidence of his story.

Meantime. Miss Culberson, the object of the Englishman's ardent attentions, is at home with her mother, away from everybody. Her allowance, ordinarily bountiful as might become the wealth of her father, has been cut off so that she cannot get to see the romantic soldier with whom she has had a love affair for the last five months.

Senator Had to Pay Robertson's unusual method of pressing his suit was to keep a constant train of telegrams going to the Culberson residence in Sixteenth street, with the result that there was an endless parade of messenger boys, and all the messages they carried were marked "Collect." At intervals, when telegrams were not arriving, Robertson was getting Misq Culberson on the long-distance telephone from Austin, Tex., with the charge reversed.
